WE ARE KNITWIN

A Manufacturing Partner for Modern Fashion Brands

Knitwin is a full-service sustainable apparel manufacturer based in India, supporting international brands from product development to final production.

With roots in textile manufacturing dating back to 1959 and a focused commitment to sustainable fashion since 1996, Knitwin combines experience, material expertise and structured production processes to deliver reliable results for brands of all sizes.

We work with startups, growing labels and established brands across Europe and international markets, providing a seamless manufacturing experience from concept to delivery.

Our Positioning

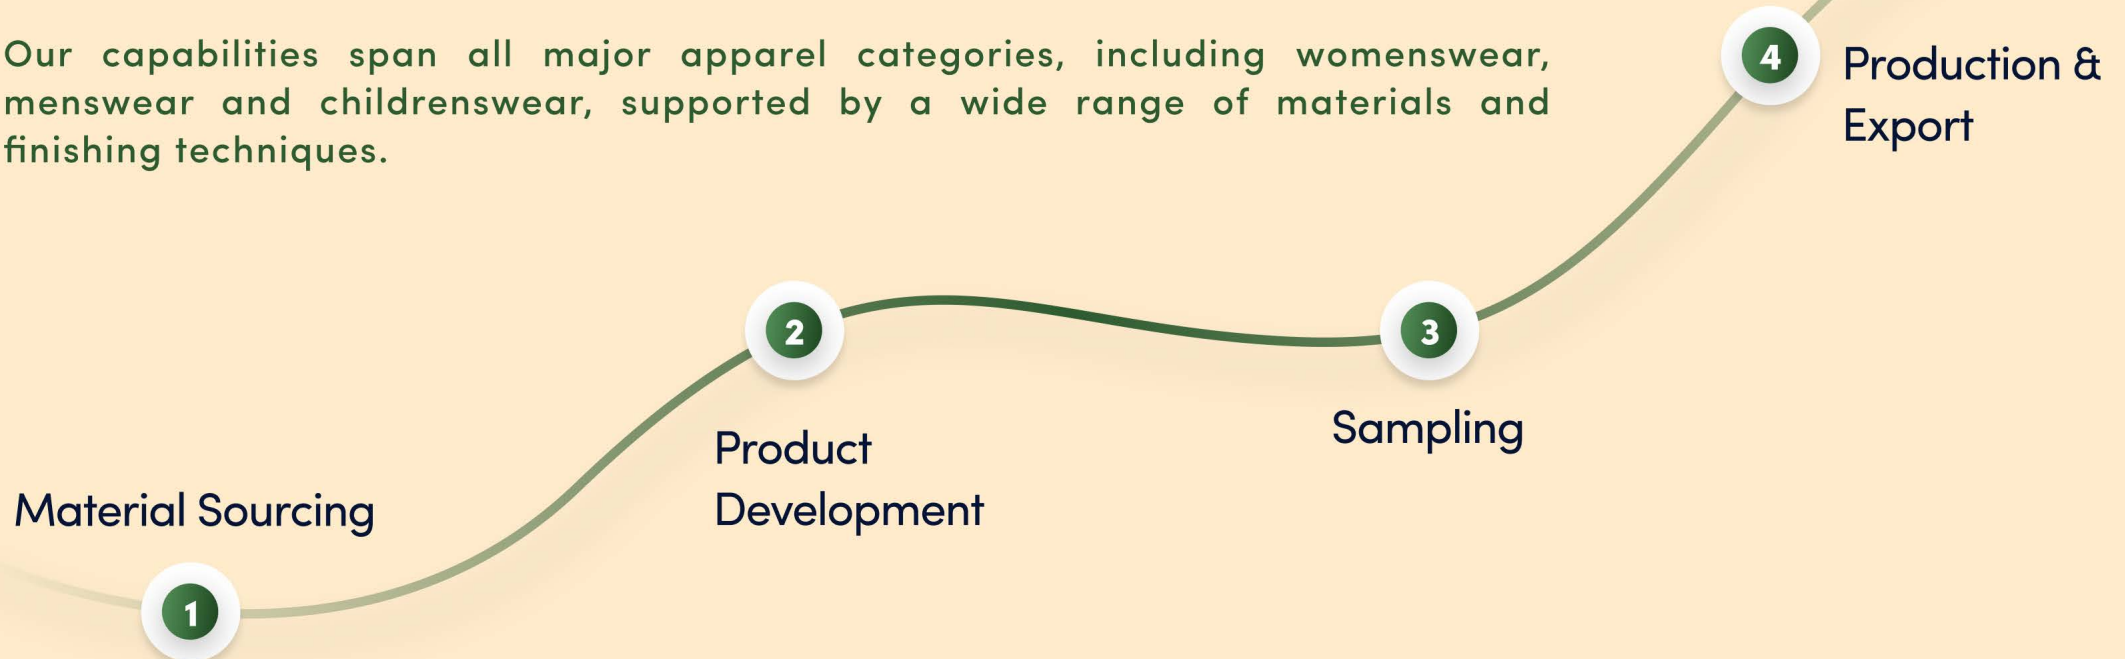

One Partner.

Complete Production Capabilities.

Knitwin enables brands to develop and produce sustainable garments through a single, integrated manufacturing partner.

We combine material sourcing, product development, sampling, production and export into one structured process reducing complexity, improving efficiency and ensuring consistent results.

Our capabilities span all major apparel categories, including womenswear, menswear and childrenswear, supported by a wide range of materials and finishing techniques.

Sourcing

Apart from our in-house capabilities, we work with a network of partners to offer. Organic cotton, organic linen, Lenzing Modal, Tencel and EcoVero, handlooms, recycled polyester and silk fabrics.

Sampling

Our dedicated sampling team ensures we turn around samples in under two weeks. Every sample sent has a counter copy to ensure a smooth progress through an approved PPS.

Quality Control

Our team has been manufacturing sustainable fashion since 1996. Our rigorous and time-tested QC process make us reliable and is part of the reasons why brands trust us.

Tags and Packaging

Along with sustainable fabrics and dyes, we strive to offer sustainable accessories options. Organic cotton labels, organic cotton handmade paper or biodegradable vegetable starch bags for instance.

Worldwide Shipping

Our team helps in gathering and facilitating worldwide shipping options at competitive rates. Through private courier or forwarder, by sea or air.

Pattern Making

Our experienced pattern makers work with you to find the perfect fit. We also offer digital pattern.

Ethical Manufacturing

Putting back humanity in clothing manufacturing is one of our core values. We produce both knitted and woven pieces, for men, women and children, with special care and intent for the hands behind your pieces.

Services

And Development
Network

Production Capacity
Across Knitted And
Woven Garments

Our Values

Sustainable Structured. Reliable. Collaborative.

We believe that successful manufacturing is built on clear processes, open communication and strong collaboration.

Our approach is designed to give brands full visibility and control throughout the production journey from initial concept to final shipment.

With a focus on precision, structured communication and long-term partnerships, each project is executed with consistency and attention to detail.

Sustainability

Since our inception, we have been dedicated to producing fashion with the least possible impact. That is why we only work with sustainable fabrics and dyes.

Community

We believe it is our responsibility to shed light on the people behind our clothes and to protect them from the often shameful working conditions of our industry.

Excellence

The most sustainable fashion is the one that lasts. Fashion that lasts requires excellence. Excellence in the fibres, the spinning, the weaving, the dyeing and the garmenting. This is why we only work with high quality materials.

Long-Term Partnerships With International Brand Clients

Support For Third-Party Inspections And Audits

Integrated Accessories And Sustainable Packaging Solutions
